

Caring in Bristol
Desktop

Overlay on nav bar as it scrolls

Donate could have a bigger call to action

Nav Bar scrolls with page

Caring in Bristol works in imaginative and creative ways with people experiencing or at risk of homelessness, with the public and community partners to bring about lasting change in Bristol and beyond. [Donate and help us stop homelessness in its tracks.](#)

Caring in Bristol's work this year

Find out what we've been working on this year

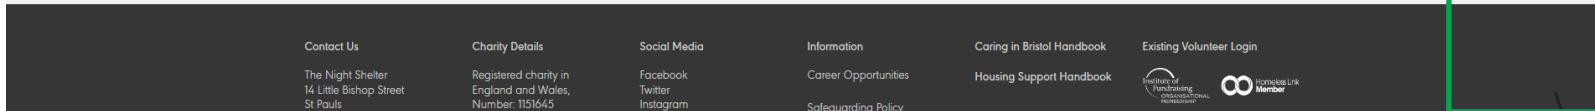

Housing Support Handbook 2022/23

Download our newest handbook now

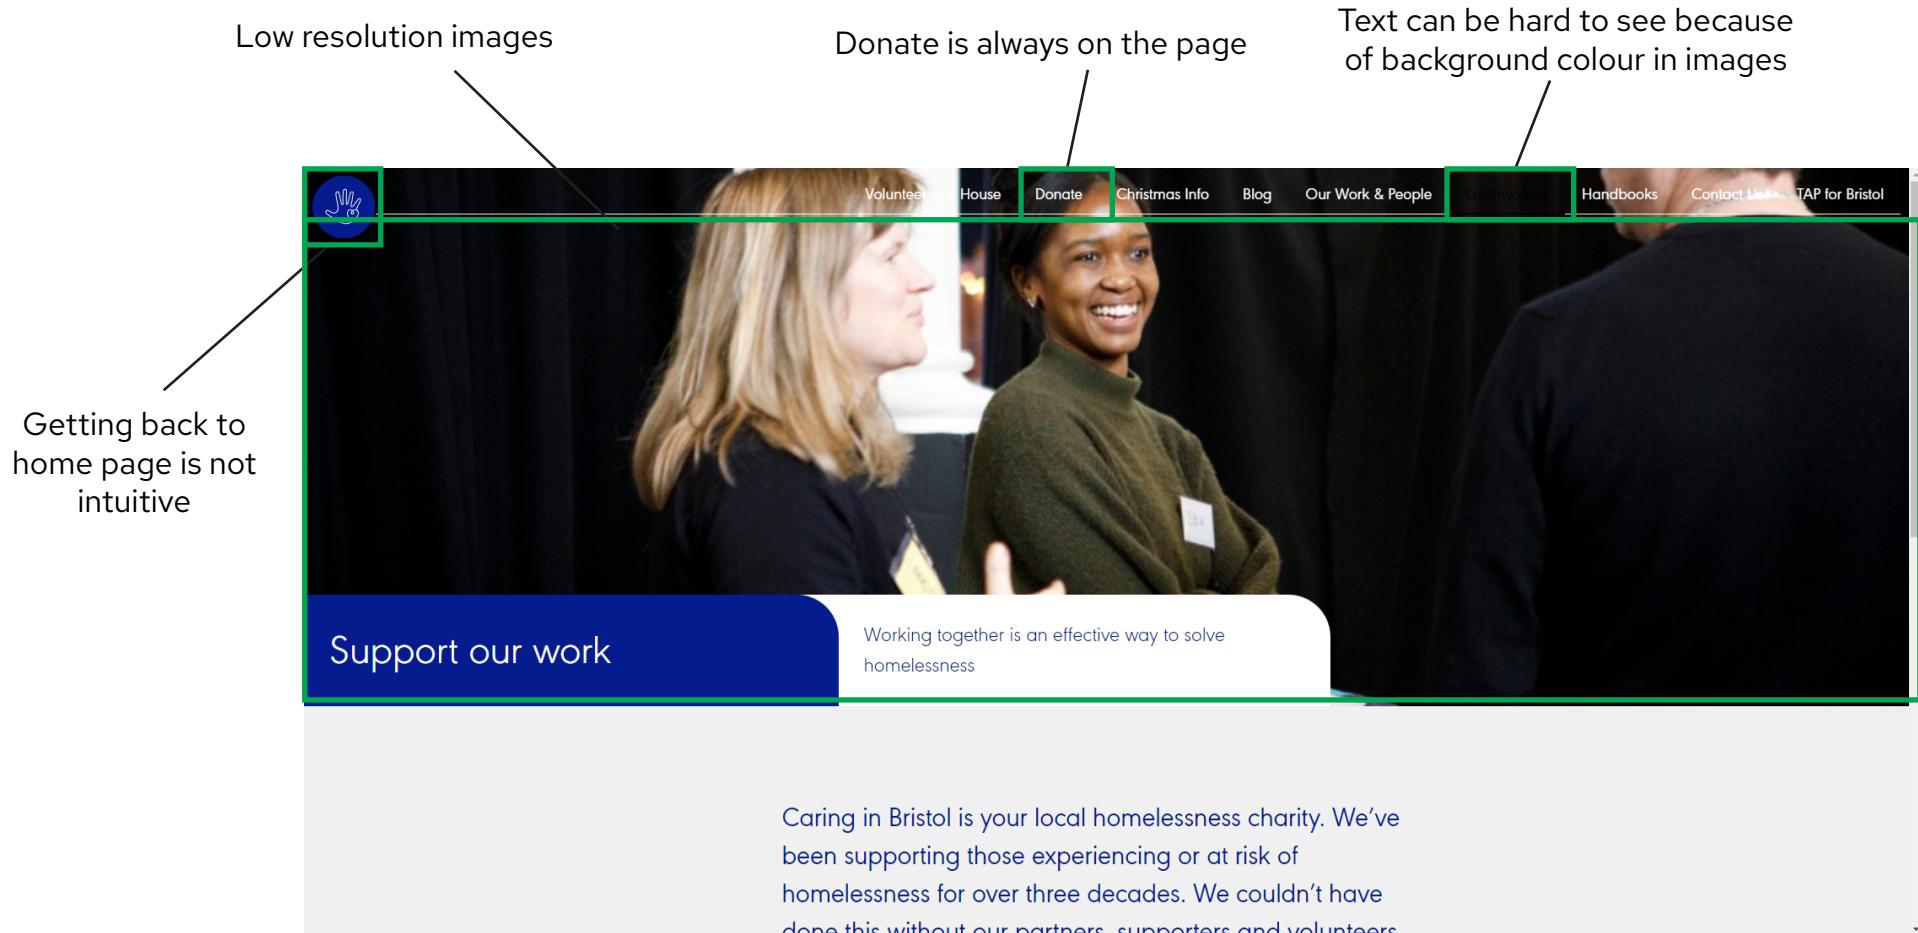

Support our ongoing work

Your gift will help us fight and prevent homelessness in Bristol

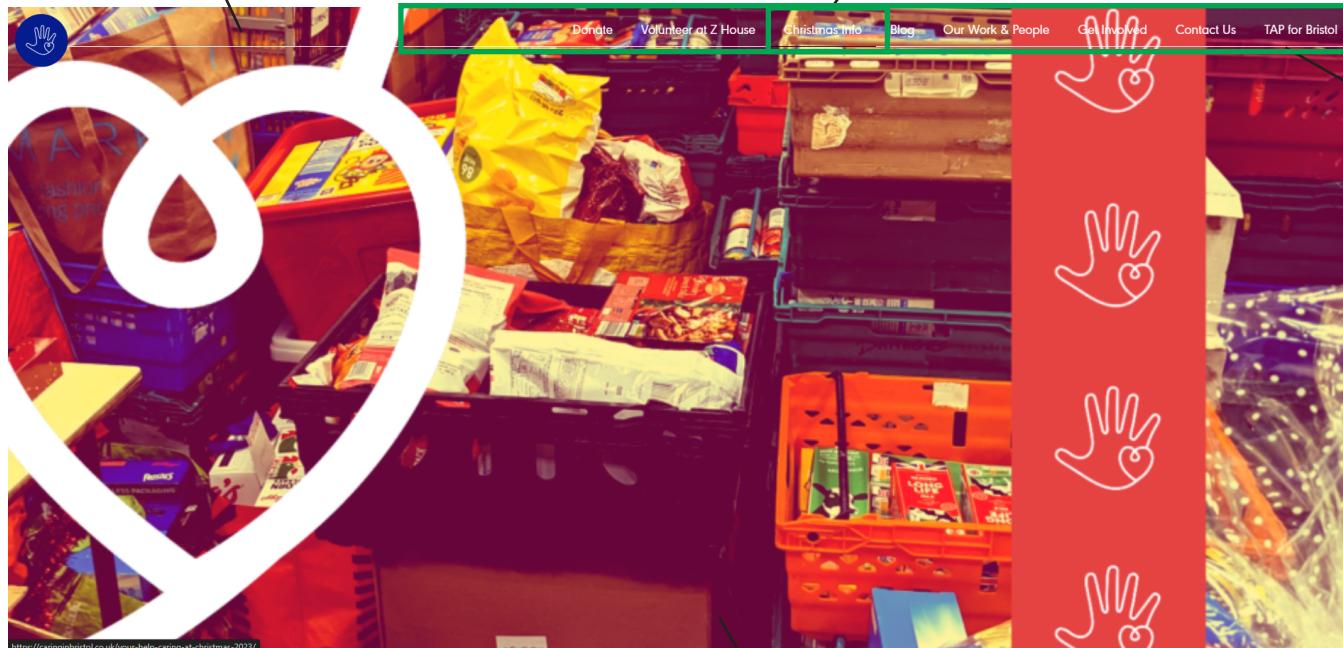

Side bar is a nice feature that can display extra information

Not very accessible and no button to take you to the top of the page

Images are not the best
and can make nav bar hard
to read

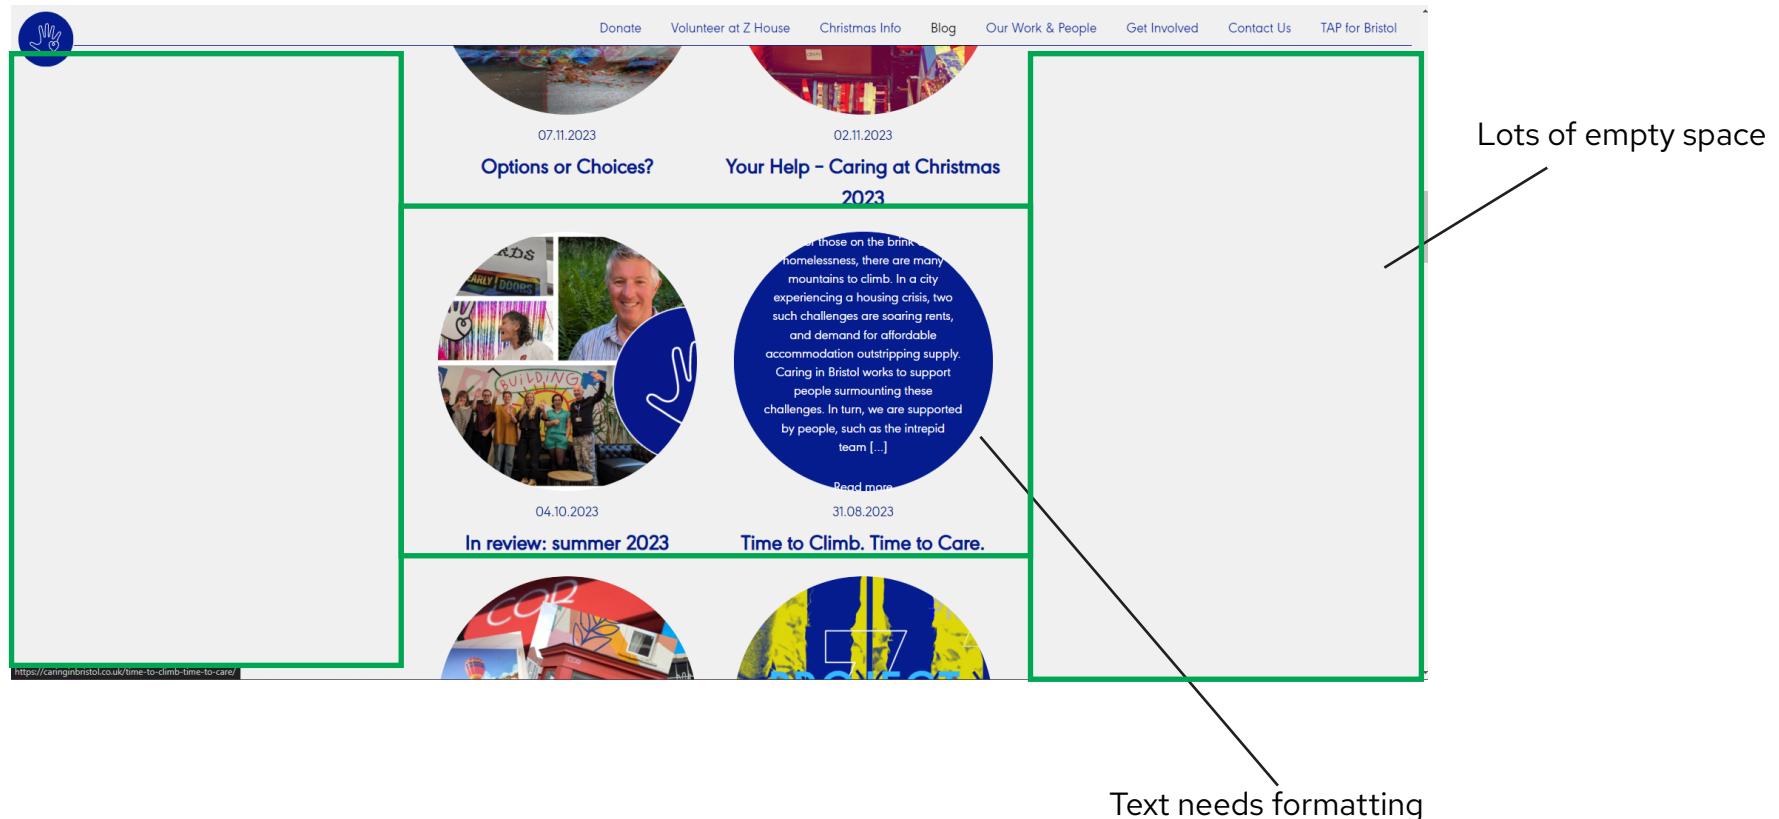

Not suitable for anyone who
doesn't have english as
a first language

External links take you
to a new page in the
same tab

Text needs breaking up -
lots going on which can be hard
to read

Purpose of interactive page isn't
clear and hard to navigate

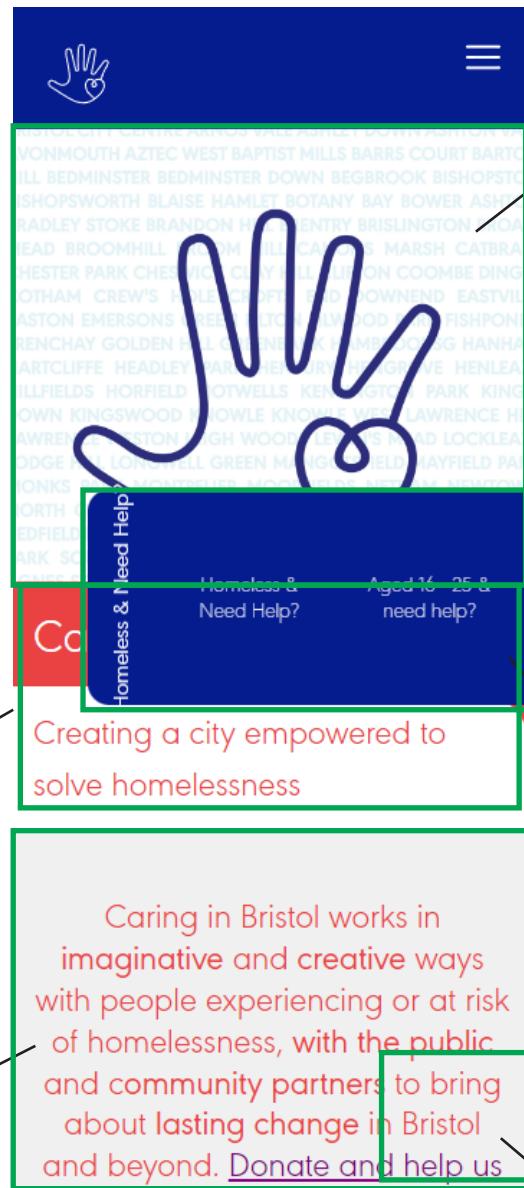

Lots of pages can be intimidating
and overwhelming - also harder
to find information

**Caring in Bristol
Mobile**

As a mobile site the page works well

Heading and subheading are displayed nicely

Text alignment works better and is consistent

Initial image on home page isn't great

Drop down bar takes up the whole page and can be very overwhelming due to having too many options

More info side tab won't close once opened

No button to scroll to the top

Homeless & Need Help?

Hierarchy is clear in drop down but words sometimes move based on what page you open the menu on

Two menu bars
can be confusing

Navigating to home
page is not easy

Some images are
cut off due to
being too big

Inconsistency in
image sizing

Blog page isn't great -
it has a lot of scrolling
but is nicer than the
desktop
